

Profile

MIKE MOELLER'S CALIFORNIA 181

Location: Rancho Cordova, CA

Car: Year Orange Roll_Bar

Engine:: stock d/p 1600

Body: Repainted inside and out almost matches original pumpkin orange

Interior: Reupholstered in Mexico about 10 years ago-still looks new

How I came to own a Type 181: Bought it off my grandfather. He had owned it since 1985. I had wanted it since I was a kid-now its mine!!!

What did my family think:: they love it

Do own work or use a mechanic:: I do my own work

How often do you use the car and what for:: Dry weather, Daily Driving. Always garaged

What does the future hold for the car: Although its in very good original condition. I would like to give it a frame off resto some day and match the original pumpkin orange. It will always remain stock.

Anything else to add: Spent the last 20 years in grandpa's garage. It was towed behind the RV a few times (rock chip damage on paint as a result) and driven rarely. I believe the 40k mile o/d reading to be accurate.

Next issue: Ton Hagelaar of the Netherlands.

To profile your car go to:
